

AssignEffectID

```
graph LR; A[AssignEffectID] --> B[doesEffectIDExist]
```

A diagram showing a call from the function `AssignEffectID` to the function `doesEffectIDExist`. The `AssignEffectID` box is shaded gray, and the `doesEffectIDExist` box is white. A blue arrow points from the right side of the `AssignEffectID` box to the left side of the `doesEffectIDExist` box.

doesEffectIDExist
